How to play the game

Teacher/teaching assistant with 3 or 4 pupils. Please include pupils with a good command of English who can act as good role models.

The winner for each game is the first pupil to cover all their numbers with the counter cards.

Stage 1

Give each pupil a number line. Talk about the colours and count the numbers up to 10. Encourage pupils to teach you to count using their home language.

- Give each pupil a number lotto board for stage 1, the same colour as their number line.
- Teacher/teaching assistant takes a number card from the container and reads out the colour and number:
eg: **Who has a red 2?**
Show them the number if needed.
Encourage them to answer
I have a red 2.
- Pupils can use the number line to help them.

Stage 2

- Play as Stage 1. At the end of the game ask the pupils which numbers were missing on their board.
The number line can be used for this.

Stage 3

- Play as Stage 1. This game will reinforce the numbers and colours randomly. All the numbers from 0-10 are used in this game.

- *If you wish to use less than four boards use the guide to find which numbers are needed.*

Follow up Activities

- Ask the pupils to sequence the numbers cards from 0-10.
- Remove one card from the 0-10 sequence and see if the pupil can tell which number card is missing.
- Pick the cards at random and see if they can count the appropriate number using unifix blocks, counters, and shapes.
- Ask pupils to look for these numbers and colours in school and at home.
- Cover up a number card with card and slowly reveal the number so that the pupils can guess the number before it is uncovered.
